

THE NEW JERSEY SYRINGE ACCESS PROGRAM

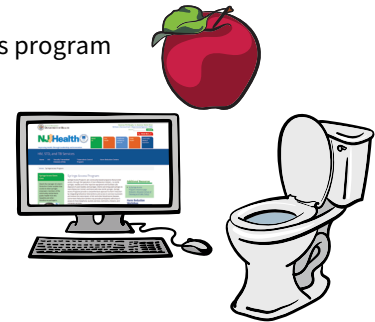

A HARM REDUCTION STRATEGY

The New Jersey Syringe Access Program provides a comprehensive approach to harm reduction by allowing individuals to turn in used syringes for new, clean syringes by **integrating behavioral interventions** and **reducing the transmission of HIV and blood-borne diseases.**

Drop-in centers house this program and provide access to:

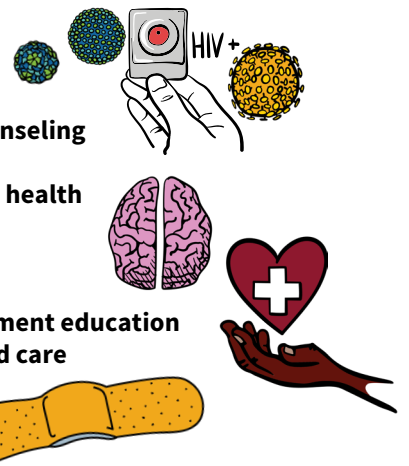

- **food**
- **telephone**
- **laundry services**
- **restrooms**
- **showers**
- **computer services**

ACCESS TO REPRODUCTIVE CARE

The New Jersey Syringe Access Program also provides patients access to reproductive care and HIV nurses who provide services to identify women at a high risk of transmitting or contracting vertical HIV or Hepatitis C. The New Jersey Access to Reproductive Care and HIV Program, in conjunction with the New Jersey Syringe Access Program, provides access to the following:

- **HIV & viral hepatitis testing/counseling**
- **Condoms**
- **Linkage to medical care, mental health services, & social services**
- **Overdose prevention education & access to naloxone**
- **Safe disposal of injection equipment education**
- **Safe injection practices & wound care**
